

**Task 1.**

In a folder of your choice, run the following command:

```
git clone https://github.com/nicolson/ME459Upstream.git
```

By doing this you'll be cloning a GitHub repo that was used last time ME459 was taught at UW-Madison. In the ME459Upstream you'll find several sub-folders that contain helpful files. For this assignment, the sub-folder of interest is HW04 – please take a look therein.

```
[[cmiao@euler ~]$ git clone https://github.com/nicolson/ME459Upstream.git
